HISTORIC FACTS

Phoenix Deer Valley Airport (DVT) was founded in 1959. The primary financier for the airport was television personality Art Linkletter. The City of Phoenix purchased the airport in 1971 for use as a reliever airport for Phoenix Sky Harbor International Airport. A second runway was added in 1976, and the airport has evolved into the busiest general aviation airport in the country.

ECONOMIC FACTS

Businesses on the airport and the Northwest Industrial Airpark accounted for 835 private sector jobs in FY 2016, with payroll of \$62 million and sales/revenues of \$175.2 million. Government (including Arizona agencies and City of Phoenix) accounted for an additional 84 jobs. The value of capital improvement projects was \$7.6 million, supporting 46 construction jobs on the airport.

The FY 2016 direct impact for DVT includes 965 workers employed, payrolls of \$72.3 million and economic activity (sales, revenues) totaling \$196.2 million. Once these dollars recirculated within the Greater Phoenix area, the total economic impact for Deer Valley airport yielded 2,213 jobs, payroll of \$136.8 million and total economic activity of \$380.5 million.
